

Your new water meter has been installed!

This new meter is part of the installation of new Advanced Metering Infrastructure (AMI) for the Murfreesboro Water and Sewer Department (MWSD).

You will not be charged for the new meter.

Your water service was stopped during installation. It would be best to run your water for a few seconds before use to clear the line. If your water does not clear up or if you have a question, call the number provided below.

Your new state-of-the-art meter uses radio frequencies to transmit your water usage reading to the MWSD office. You can expect:

- * *Accuracy– the new meter is more accurate and human error is eliminated in obtaining your usage*
- * *Convenience– we will not need to enter your yard to read your meter but only for periodic meter inspection or maintenance*
- * *Security– meter transmissions will not interfere with any electronic or medical devices*

If you have a question or a problem regarding this installation, call US Bronco at 615-513-5729
